

Bradford Beacon's Weekly News

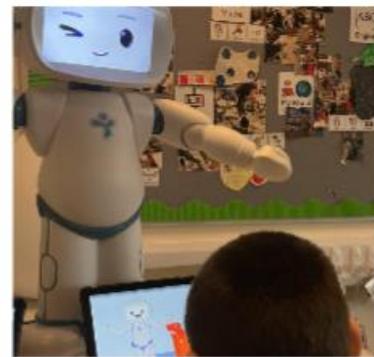

Welcome to our Weekly News.

As we end our second term at Bradford Beacon School, staff have been reflective of the progress the children have made. The interactions between the children continue to be a real strength and seeing them play with each other in and outside the classroom is a joy. We hope all our families enjoy the Break and Happy Easter to those celebrating!

Bradford Beacon's Star ★

Jaxon – Jaxon has had an amazing week. He has been engaging in his learning, playing with his friends and using lovely manners.

Our Learning

Clinical team update

This week, we've had groups running in the therapy room where we've been working on our fine motor skills. The children were tasked with navigating the tape to get items hidden beneath, either using their fingers or in some cases tools.

We modelled key vocabulary using our communication boards and encouraged the children to match the rescued items to their symbol colour mat. It was great to see the children explore different items and to see their individual preferences communicated through this.

On the last day of term, Bisma (our therapy assistant) organised an Easter Egg hunt for all the children. The children explored the playground and were very focused on finding the eggs that had been hidden!

We hope you all have a lovely two weeks off – see you soon!
