

Sage Class Trip

Pupils from Sage class enjoyed an end of Term trip to LIFE Play in Bradford, where they had the opportunity to experience, explore, create and grow through imaginative, sensory and active play.

The pupils immersed themselves in imaginative role play, taking on different roles in the café, kitchen and pharmacy, while others enjoyed building with magnetic tiles and creating railway tracks, encouraging creativity, problem-solving and shared play. They also had great fun exploring the sensory area and enjoying the climbing frame and slide, developing confidence through play and movement.

Throughout the visit, the children made choices, explored new experiences and engaged with familiar adults through meaningful play. It was wonderful to see their smiles, curiosity and growing confidence as they discovered new interests and enjoyed the freedom to play, imagine and interact with the world around them. The day was filled with laughter, exploration and memorable experiences, making it a fantastic visit for everyone involved.
